BRUNO GUILLON, CHIEF EXECUTIVE, COMMENTED:

"Mulberry ended the year to 31 March 2013 in line with the guidance given in March. Our retail sales increased 8% during the year, however this was offset by lower sales from the wholesale business.

After three years of rapid growth, we have had a year of consolidation during which we have laid the foundations for the transition of Mulberry from a UK success story into a global luxury brand. In particular we are increasing UK production and enhancing both our retail experience and product range.

Mulberry has a well-established business in the UK and a growing presence in Europe. With over 80% of our sales derived from these markets where the economic climate remains difficult, Mulberry's challenge for the future is to accelerate our brand awareness in the USA and Asia. Greater visibility in Asia will allow us to benefit from tourist traffic in Europe and the USA at the same time as growing our business locally."

Business review

Total revenue for the year to 31 March 2013 was £165.1 million, down 2% from £168.5 million in 2012, reflecting growth in retail sales offset by a decline in wholesale sales.

RETAIL

Our own stores and concessions saw continued growth with revenues up 8% to £107.2 million (2012: £99.7 million) and up 6% like-for-like. This was achieved against a backdrop of very strong growth last year of 36% and a challenging economic climate in the UK and Europe as well as a reduction in tourist spending in the London stores.

- UK retail sales were up 6% to £91.8 million (2012: £86.9 million);
- International retail sales were up 20% to £15.4 million (2012: £12.8 million). During the period we opened seven new directly operated stores in the USA, Germany and Switzerland;
- Online sales, which are included in the segments above, were up 21% to £17.6 million, accounting for 11% of Group sales (2012: 9%).

WHOLESALE

Wholesale revenue was down 16% to £57.9 million (2012: £68.8 million), reflecting two key factors:

- The quality of the European wholesale channel was improved through rationalisation of accounts; and
- A slowdown of demand in Asia following very strong sales over the last two years driven by certain key products.
 This resulted in a period of destocking and cautious re-ordering by our Asian franchise partners during the year to 31 March 2013.

Although these factors have resulted in lower wholesale sales this year, the steps that we are taking to improve the quality of the wholesale distribution network are expected to have a positive impact on both the retail and wholesale businesses in the future.

During the year we opened ten partner stores: a flagship store in Singapore, five stores in Korea, and one store in each of Shanghai, Beijing, Nagoya and Bahrain.

FINANCIAL

Gross margin was 63.3% for the year to 31 March 2013 (2012: 66.2%) due largely to a catch-up in product related overheads relative to sales which have normalised this year after rapid sales growth in the previous two years. In addition, gross margin was affected by higher raw materials costs which were not reflected in prices until November 2012.

Net operating expenses for the period increased by £2.9 million to £79.0 million (2012: £76.1 million). This includes £6.3 million additional costs related to new directly operated international stores offset by cost savings in other areas.

The Group had an effective tax rate of 28.2% for the year (2012: 29.7%) resulting in a tax charge of £7.3 million (2012: £10.7 million). We expect to see a decrease in the effective tax rate over the next two years in line with the announced reduction in UK corporation tax rates.

Due to the reduction in gross margin and the investment in directly operated international stores, profit before tax fell 28% to £26.0 million (2012: £36.0 million).

Capital expenditure for the period was £16.9 million, of which £8.8 million related to new stores, £4.4 million to factories and £2.9 million to investment in IT systems.

Inventories have increased to £35.7 million from £32.5 million at the start of the period partly reflecting new store openings but also lower sales than originally anticipated. Overall, the Group balance sheet remains strong with cash of £21.9 million at 31 March 2013 (2012: £27.3 million) and no debt.

The cash generated from operations for the year amounted to an inflow of £24.2 million (2012: inflow of £30.1 million).

Basic earnings per share for the year decreased by 27% to 32.2p (2012: 43.9p).

The Board is recommending the payment of a dividend on the ordinary shares of 5.0p per ordinary share (2012: 5.0p) which will be paid on 9 September 2013 to shareholders on the register on 16 August 2013.

STRATEGY

We have previously outlined Mulberry's four long term strategic themes and over the last 12 months we have taken the following steps:

1. Reinforce luxury positioning:

- Made in England: our second factory in Somerset, UK, was completed during June 2013, and it will double our UK production capacity; and
- Distribution: we opened retail stores in prime locations with an updated store concept and rationalised the wholesale distribution network in Europe.

2. International expansion:

We continue to focus on prime retail locations complemented by high quality wholesale accounts. During the year we:

- Improved our retail and franchise store network:
 - Opened seven directly operated stores and ten partner stores in prime retail locations, in line with our target of 15-20 stores per annum. This brings our global store footprint to 115 stores, including directly operated and partner stores;
 - Consolidated our Middle East franchise operations, appointing Chalhoub Group to operate our business in the region (excluding Qatar) and accelerating the store opening plans over the next two to three years; and
- Increased the quality of our multi-brand distribution network through a European account rationalisation, continuing to build and maintain strategic partnerships with key department store accounts.

3. Product development

A number of product development initiatives have been completed during the year which will launch with the AW13 collection in stores from June to September 2013. For example:

- In the women's bags category we have reinforced our core and entry level offerings under £1,000 with additional leather, colour and component offerings and the continued introduction of new styles. The price architecture of the offering has also been extended at the higher end of the Mulberry range, with the introduction of handbags priced between £1,000 and £1,700;
- We have increased the colour and style options for small leather goods, belts and fashion accessories; and
- The men's accessories category has been significantly reinforced, with a 50% increase in product lines for AW13 compared to AW12. Growth of this category is an area of opportunity for the brand, particularly in Asian markets.

4. Leverage operations to support growth

One of our key strategies is to maintain a balanced investment programme including new stores, factory facilities and IT systems. During the year to 31 March 2013 we invested in all three areas with £8.8 million in capital expenditure spent on stores, £4.4 million on our UK factories and £2.9 million on IT systems.

We have also enhanced the organisation structure with an investment in talent throughout the organisation and a move to regional reporting lines from 1 April 2013. Regional heads have been appointed for Europe and North America and

the new structure is designed to bring consistency and co-ordination between the retail and wholesale channels and drive international growth through regional focus and accountability.

During the year we completed a review of our supply chain. We have already implemented an improved wholesale ordering timetable and are now commencing a project for the implementation of a new integrated supply chain system which is expected to be completed during the financial year ending 31 March 2015.

While investing for future growth, we continue to carefully manage investments and costs throughout the business.

CREATIVE DIRECTOR

As previously announced, Emma Hill, our Creative Director, has informed the Company that she wishes to leave after a very successful period at Mulberry during which she has built a strong and talented creative team working for her. The main SS14 collection has been completed and Emma continues to work in the business finalising the SS catwalk collection which will be launched on 15 September 2013 during London Fashion Week. The timing of her departure is currently under discussion and has yet to be finalised.

CURRENT TRADING AND OUTLOOK

The outlook for both the retail and wholesale businesses for the year to 31 March 2014 remains challenging given Mulberry's heavy reliance upon the UK and European markets where the economic climate continues to be difficult.

The trading conditions in Mulberry's more developed domestic market highlight the importance of our international growth strategy. We continue to take the necessary steps to build our businesses in the USA and Asia, opening stores in prime retail locations and investing in marketing initiatives that highlight the brand's heritage and craftsmanship. The Asian customer is important globally as tourism continues to be a critical component of luxury sales, and we are particularly focused on raising our brand awareness in this market.

During the 10 weeks to 8 June 2013, total Retail sales were 9% above the same period last year (like-for-like sales up 6%).

The wholesale order book for SS14 is building satisfactorily and we expect modest growth in wholesale sales for the year to 31 March 2014.

Since the year-end we have opened directly operated stores in Berlin and Vienna and a partner store in Palma de Mallorca. We continue to target 15 to 20 new international store openings per annum, being a combination of both directly operated and partner stores.

Capital expenditure for the year to 31 March 2014 is expected to be in the order of £20.0 million, subject to the timing of new store openings and other investments. This continues to be funded from internally generated cashflow.

During the year to 31 March 2014 we will continue with our global expansion strategy, focusing on the transition of Mulberry from a UK success story into a global luxury brand.
